

## Sport Premium Funding 2015/16

In the last year we received £9,345 sports funding.

This is what we spent it on:

- 1) Sedgefield Sports Partnership enhanced SLA: £4000
- 2) Sedgefield Sports Partnership competition SLA: £1650
- 3) FOL Dance coaching: £1170
- 4) FOL Football coaching: £950

(The above adds up to £7770 which leaves £1575)

- 5) New equipment

This is what was provided through these packages:

- 1) Sedgefield Sports Partnership enhanced SLA

\*30 hours of specialist teacher support – this was used to help create schemes of work for our Foundation stage and create a whole school long term plan for PE including a range of core tasks covering all areas. All teachers now have clear guidelines and ideas on what to teach in their PE lessons now and how to assess children’s abilities using the core tasks.

\*30 hours of coaching support – we had coaches from the SSP delivering lessons in gymnastics, fundamental movement skills (KS1) and athletics. Each coach did 5 weeks with four different teachers/classes allowing a wide range of teachers to learn from the coaches and develop their skills in a variety of areas. All teachers felt more confident in delivering the types of lessons that they assisted the coaches with and gained new ideas/techniques for delivering the sessions in future years – improving the standard of PE teaching overall.

\*Access to a range of CPD – Teachers have taken advantage of attending a range of courses such as ‘How to raise attainment in numeracy through the use of physical activity,’ teaching dance and gymnastics and subject leaders courses/meetings that keep us up to date with information regarding school sport. Teaching standards in PE increased through attending these courses/meetings.

## 2) Sedgefield Sports Partnership competition SLA

\*A competition calendar that offers a wide range of sporting events both competitive and fun to children in all year groups. We attend as many competitions and festivals as we physically can to give our children the most opportunities possible. Every child represented our school in an event this year.

\*Two 6 week after school gymnastics clubs ran by professional coaches – both KS1 and KS2 children had the opportunity to attend an after school gymnastics club this year. Children's skills improved.

\*Taster sessions in Judo (all children) Basketball (Year 5) and Golf (year) to provide children with a taste of clubs and sports that are available to them in their local area. Some children joined the clubs after their taster sessions.

## 3) FOL Dance coaching

\*A coach from the Foundation of Light delivered 2 hours of curriculum time KS1 dance coaching and an after school KS1 dance club for 12 weeks. Children thoroughly enjoyed the sessions and staff learnt a lot from observing and joining in with the coaches. All KS1 teachers now feel more confident in the delivery of dance sessions - improving the standard of PE teaching overall.

## 4) FOL football coaching

\*A coach from the Foundation of Light delivered 2 hours of curriculum time KS1 football coaching sessions for 12 weeks. Children's football skills improved during the sessions and staff learnt a lot from observing and joining in with the coaches. All KS1 teachers now feel more confident in the delivery of basic football skills - improving the standard of PE teaching overall.

## 5) New equipment

\*Any money that was left over after paying for the SLAs and coaching was spent on new equipment for PE lessons, break times and after school clubs such as: netball bibs, different coloured bibs (for football coaching) basketball hoops, footballs, ball pumps, spots, various size balls (for KS1) and bean bags.
